v Slovenskih goricah

*The jewel of
Slovenske gorice*

On a hill there is a church with three bell towers, visible from afar and which make Sveta Trojica v Slovenskih goricah special and well known since the 17th century. From then on pilgrims visited Sveta Trojica in masses, for they had heard the stories of healings and miracles. This influenced the development of the old market town as we know it today.
